

ICA 2029 UPDATE

Africa Takes the Global Stage

11th TASK ANNUAL CONVENTION 2026

Why not Kenya? Why not Nairobi? Why not Africa?

Expression of Interest

We put our hand up — not sure we would even be considered.

The competition

Up against Singapore and Argentina. Then down to Kenya and Singapore.

Lisbon

Our final presentation. A compelling story — and against the odds, we won.

Tokyo • Nov 2026

ICA 2026. Kenya formally receives the baton.

Nairobi • June 2029

The world comes to Kenya.

MORE THAN A CONGRESS

2nd

ICA ever held in Africa — after Cape Town 2010

1st

ever in East Africa

A platform for Kenya

Show the world a modern, confident, innovative Kenya — our talent, capability and hospitality.

A platform for Africa

Put African risks and solutions at the centre of the global conversation: financial security, pensions and health, climate, protection for the uninsured.

A platform for our profession

Show what actuaries on this continent can contribute to the world, how we can reposition the actuarial profession in Africa — and inspire the next generation.

Three words. One ambition.

Insights

Decode emerging risks and opportunities — AI, climate, longevity, new data — and take actuarial thinking beyond our traditional boundaries.

What are we seeing that others aren't yet?

Impact

Move beyond analysis to resilience, policy, financial stability and long-term value.

So what? Whose life became more secure because of our work?

Inclusivity

A stronger voice for Africa and emerging markets. Young actuaries, academics and people from outside the profession in the room.

"I belong here — now."

Global appeal — with an African flavour

GLOBAL APPEAL

Big data, AI, machine learning & predictive analytics

Longevity risk & ageing populations

Climate change

Regulatory developments

Pandemic risk modelling

InsurTech & pensions tech

Repositioning the actuarial profession

Ethics in actuarial practice

Informed decisions with limited data

Micropensions, microsavings, microinsurance & P2P insurance

The impact of climate change on Africa

Shaping regulatory reform in Africa

Healthcare challenges & solutions for Africa

FinTech & InsurTech for African markets

The SDGs and actuarial practice

Implementing actuarial standards

Winning was hard. Delivering will be harder.

Six workstreams already moving

1 Scientific programme

2 Sponsorship

3 Logistics

4 Marketing

5 Social experience

6 Budget & Finance

...and a thousand other things nobody notices if we get them right

NEXT MILESTONE

ICA 2026 Tokyo

8–13 November 2026

Kenya formally receives the baton.
Nairobi stops being a distant future
host — we become next.

Then the clock really starts ticking.

ICA 2029 ORGANIZING COMMITTEE

Sundeep Raichura
Chairperson

This has to be our Congress. Every one of us.

Bring ideas & papers

Programme ideas, research, the paper you will present in 2029.

Open a door

Introduce us to a sponsor or partner.

Use your networks

Tell speakers and colleagues everywhere: be in Nairobi.

Put your hand up

Volunteer or join a working party.

Shape the experience

Culture, food, excursions, hospitality.

“2029. Nairobi. You need to be there.” Don't wait until 2028 — the Congress is being built now.

INTERNATIONAL CONGRESS OF ACTUARIES
NAIROBI, KENYA.

— *Karibu Nairobi* —
THANK YOU
